FOUR QUESTIONS

Marie Castro

DESIGNER & CONTENT CREATOR

"I live in the vibrant chaos of São Paulo, Brazil, and love creating with my hands."

@mariecastrodiy

Marie Castro is a designer, entrepreneur and content creator leading the handmade fashion movement in Brazil, with a global community of over 2 million followers. As the founder of Moira, a craft hub and marketplace connecting more than 20,000 people, and a longtime Círculo ambassador, she bridges traditional textile crafts, digital innovation and high fashion. Her career spans runway collections at Fashion Rio, installations at Copenhagen Fashion Week and two international Domestika courses.

HOW DID YOUR JOURNEY WITH KNITTING AND CROCHET BEGIN?

It started in my childhood. I learned by watching my mother and grandmothers. I've always loved DIY projects for the autonomy and creative freedom they give me, and I haven't put down my needles and hooks since.

WHAT'S ON YOUR NEEDLES OR HOOK RIGHT NOW?

A dress for New Year's Eve! In Brazil, it's a tradition to wear elegant white or off-white pieces to celebrate the end of the year with great (Brazilian, lol) energy. I'm making it with Liné Coton, Círculo's sophisticated fingering blend of cotton and linen, coming to the US in January.

WHICH CÍRCULO YARN IS YOUR FAVORITE, AND WHY?

Definitely Natural Cotton Maxcolor 6. It's incredibly versatile and works beautifully for garments, accessories and home decor. It fits every project idea, and it's made with premium, high quality natural cotton.

YOUR ADVICE FOR A FIRST-TIME MAKER?

Be patient with your learning process, and remember that crochet and knitting go far beyond technique. They are a form of self-care and a gateway to an amazing community. Technique is just the beginning of a whole universe of possibilities.
